PROFESSIONAL SUMMARY

Full Stack Developer proficient in the MERN Stack with hands-on experience building real-world web applications. Strong problem-solving skills backed by 150+ LeetCode problems solved across arrays, graphs, trees, dynamic programming, and more. Passionate about building scalable, user-friendly applications and integrating modern AI APIs.

TECHNICAL SKILLS

- Frontend: React.js, HTML5, CSS, JavaScript
- Backend: Node.js, Express.js
- Database: MongoDB, MySQL
- Languages: JavaScript, Java
- DSA
- Tools & Platforms: Git, GitHub, REST APIs, Gemini API, Vercel, Render

PROJECTS

PDF Toolkit — Image to PDF Converter & Merger | *React.js, Node.js, Express.js, Multer*

- Developed a full-stack web tool allowing users to convert images (JPG/PNG) to PDF and merge multiple PDFs.
- Handled multi-file uploads on the backend using Multer
- Built an intuitive drag-and-drop frontend interface for smooth user experience.
- Deployed and accessible via live URL with complete GitHub documentation.

Instagram-Style Reel Scrolling App | *React.js, Node.js, Express.js, MongoDB*

- Built a short-video reel scrolling application mimicking Instagram Reels UX with smooth vertical snap scrolling.
- Implemented video feed API with Node.js/Express.js and stored video metadata in MongoDB.
- Focused on core functionality and backend architecture; used AI assistance only for frontend UI design.

DATA STRUCTURES & ALGORITHMS

- Platform: LeetCode — 150+ problems solved
- Language: Java
- Topics: Arrays, Strings, Linked Lists, Stacks, Queues, Binary Trees, Graphs (BFS/DFS), Dynamic Programming, Recursion, Backtracking

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering: *Expected: May 2027*

RD Engineering College, Ghaziabad, Uttar Pradesh

ACHIEVEMENTS & EXTRAS

- Solved 150+ problems on LeetCode covering 10+ major DSA topics
- Built and deployed 2 full-stack projects independently from concept to production
- Self-learned MERN Stack and Gemini API integration outside of coursework
